FOR SMALL INTERIORS

SOFAS, CLIC-CLAC SOFAS, COUCHES

A teenager's room should express their style, reflect the passions and meet their needs. When decorating this space, pay attention not only to functional furniture, but also to the design of the entire interior. Simple furniture, e.g. in loft style, and simple colours – universal grey and black – will work perfectly in a young person's room.

Street sofa

TO STUDY

AND REST

The youth room combines many functions – it is at the same time a bedroom, a place to study and a place to relax. Apart from a bed, a comfortable desk with a chair is essential. Be sure to create a stylistically coherent interior design for your child's room. Match the modern, minimalist sofa with matching furniture, accessories and lighting.
